## PROJECTS (VISIT [GITHUB](https://github.com) FOR MORE)

GULAG ANTHEM BLOG APP • NEXT.JS, TAILWIND • [GULAGANTHEM.COM](https://gulaganthem.com)

- Blog app that performs full CRUD operations for essays.
- Create, Update, and Delete operations only available for authenticated users.
- Firebase Firestore backend.
- TinyMCE implementation for text to HTML conversion on essay creation.
- Adds users to mailing list through Mail Chimp.

SEEKER • REACT, TAILWIND • [JACOBWHITE.GITHUB.IO/SEEKER/](https://jacobwhite.github.io/seeker/)

- Retrieves Non-Fungible-Token (NFT) asset based on contract address and token number.
- Interacts with the OpenSea API to retrieve asset information.
- Fully responsive from large screens to mobile.

KEYS • REACT, TAILWIND • [JACOBWHITE.GITHUB.IO/KEYS/](https://jacobwhite.github.io/keys/)

- Tool that determines what key a musical composition is in based off its employed chords.
- Keys stores, updates, and resets selected chords with the use of React Hooks.
- Styled with minimalistic and elegant design principles in mind using Tailwind CSS.

PORTFOLIO SITE • REACT, SASS, JQUERY • [JACOBWHITE.DEV](https://jacobwhite.dev)

- A place to show off some of my work.
