EXPERIENCE

Readybase, Contracts

JUL 2022 - PRESENT

- **Convoy of Hope**
  - Maintained and upgraded a suite of products that brought in tens of millions of dollars in donations for those in need.
  - Created an embeddable form component in React that supported international donations.
  - Implemented universal sign-in functionality with account lockout and rate limiting using AdonisJS and Redis.
- **Mayberry Advisors**
  - Migrated and upgraded a site for insurance education and eligibility from Wordpress/PHP to NextJS (temporarily unreleased).
  - Created a multipage form to collect user information and determine eligibility with custom validation.
  - Integrated Google Analytics to provide beneficial user statistics and the Places API to enhance the user experience.
- **Snapshot Interactive**
  - Provided HTML templates for a heavy equipment dealer service.
  - Mentored and provided support for an intern in the rehabilitative services offered by the TN Dept. of Correction.

Brooksource, Contract

JAN 2022 - JULY 2022

- **Strategic Technology Solutions Division - State of TN**
  - Built upon and maintained the MyTN state app for iOS and Android using Flutter.
  - Designed and developed light and dark mode themes along with more modern design patterns.
  - Directed, assisted, and reviewed tasks for other junior coworkers.
